

INFORMATION PAPER

SUBJECT: NSW OPSTOCKS.

1. **Purpose.** Summary of NSW OPSTOCKS operations and support.

2. **Mission Support.**

a. Naval Special Warfare Operational Stocks (NSW OPSTOCKS) provides controlled secure storage of special operations Civil Engineering Support Equipment (CESE), Base Camp Materials and NSW Weapons Parts. This equipment is tracked and visible to NSW commands through the Special Warfare Automated Logistics Information System (SWALIS).

b. NSW OPSTOCKS ships, receives and stocks mission essential equipment to support NSW requirements around the world. NSW OPSTOCKS also provides secure shipping and receiving of NSW weapons parts to all NSW armories upon their request.

c. NSW OPSTOCKS maintenance department maintains the highest level of equipment operational readiness using the Navy's maintenance program Fleet Focus. This system generates and tracks all required Preventive Maintenance (PM) and Equipment Cycle (EC) Work Orders as well as equipment repairs.

d. NSW OPSTOCKS facilitators provide on hands technical training through instructor lead equipment familiarization and controlled troubleshooting procedures. The main goal of this training is to familiarize and cross train Naval Special Warfare Combat Support Service Personnel by providing mission essential equipment knowledge.

3. **Pictures of NWS OPSTOCKS.**

a. Military Equipment Storage Area / Alaska Tent.
